Election/Restrictions

1. This Office action is in response to the Election/amendment filed on November 10, 2003. By the Election/amendment, applicant has withdrawn claims 9-15, 20-30, 31-37, 46-52, 57-67 and 68-74. Claims 1-8, 16-19, 38-45 and 53-56 remain pending in the application. However, upon further review of claims 1-8, 16-19, 38-45 and 53-56, it is noted that claims 1-8, 16-19, 38-45 and 53-56 should further be restricted. Therefore, restriction to claims 1-8, 16-19, 38-45 and 53-56 is found below.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-8 and 38-45 drawn to a method and system for using a collaborative commerce application to provide a user with information associated with a first component that is part of a second component of a fluid processing plant, classified in class 345, subclass 719.
- II. Claims 16-19 and 53-56, drawn to a method for using a collaborative commerce application for searching a particular component for use in a fluid processing plant to collaboratively review fluid processing plant design, classified in class 707, subclass 3.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as performing search

Art Unit: 3623

of a component database using the metadata attributes associated with component. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
